Onur Yıldız

Software Developer

Personel İnfo

I am a 20-year-old technology enthusiast based in İzmir, with over 3 years of hands-on experience in technical support and software development. My primary areas of interest include Flutter development, web technologies, and cybersecurity. I am a quick learner, highly solution-oriented, and passionate about continuously improving my technical and analytical skills.

Work Experience

Computer Technician
2018 - 2020

Provided comprehensive technical support and maintenance services in both software and hardware domains. Responsibilities included software tasks such as system formatting, driver installation, and OS updates, as well as hardware services including component replacement, fault diagnosis, and repair operations.

Software Developer
2021 - 2022

Worked as a software developer, building dynamic and responsive user interfaces using modern web technologies. Delivered custom software solutions for client-specific projects and implemented robust database integrations to ensure scalable and efficient systems.

Cyber Security
2022 - 2025

Provided advanced protection against DDoS attacks at both Layer 4 (TCP/UDP flood) and Layer 7 (HTTP flood) levels. Analyzed network and application layer traffic to optimize security infrastructures and developed tailored cybersecurity solutions for clients.
